

## Realising Dreams, Exceeding Expectations

Award winning Ocean Design provides the leisure industry with a one-stop-shop for design and refurbishment – working for both independent and multiple operators and architects alike. So whether the project involves a bar, restaurant, hotel or club, Ocean Design can provide a creative and reliable service, as well as independent advice, to help your business succeed.

Key to Ocean Design's approach is working with the client as a team to establish goals and a common direction. The company prides itself on its ability to listen and foster good communication in order to establish a positive working relationship.

That's why the firm has successfully completed projects not only throughout the UK, but also further afield in mainland Europe,

the Middle East and Mexico. And this extensive growth has allowed Ocean Design to open up a second office in London, complementing its original base in Wakefield.

Offering the finest in architecture and interior design, the company has recently created a new concept for the So Asia restaurant franchise. The overall design has been influenced by the countries in which the cuisine originates -China, India, Thailand, Malaysia and Singapore – with natural, durable finishes and colour schemes ensuring that the concept has a long life span.

Winning much of its work through repeat business and word-of-mouth, Ocean Design is currently working on what will be one of Europe's most prestigious

nightclubs, in central London; consultation for St Martins Lane and Sanderson Hotel has also led to other 5 star hotel commissions. To find out how you can take

advantage of the company's expertise, visit the website at [www.bardesign.co.uk](http://www.bardesign.co.uk) or simply call Steve Curtis on 020 7253 6914.
